

Foodservice Operator Implementation Checklist

Prepared by the Foodservice GS1 US Standards Initiative User Workgroup

This document was prepared by the Foodservice GS1 US Standards Initiative User Workgroup in order to support foodservice operators in implementing GS1 Standards. It provides an action-oriented checklist of implementation steps to guide operators through the implementation process. *(Note that many steps in the checklist can be completed concurrently.)* The checklist includes a description of each step, as well as links to any additional resources.

Note: As with all GS1 Standards and solutions, the recommendations contained in this document are voluntary, not mandatory. It should be noted that use of the words “must” and “require” throughout this document relate exclusively to technical recommendations for the proper application of the standards to support the integrity of your implementation.
